SUMMARY

I am a ReactJS-focused web developer with expertise in creating dynamic and responsive user interfaces for web applications. Skilled in component-based architecture, state management, and modern JavaScript frameworks, I excel at building single-page applications and optimizing performance. With a solid foundation in HTML, CSS, and JavaScript, I leverage front-end tools to streamline development processes. Collaborative and detail-oriented, I effectively translate designs into functional code, ensuring pixel-perfect implementation while maintaining code quality and scalability. Staying up-to-date with industry trends and best practices, I am dedicated to delivering high-quality, user-centric applications, thriving in fast-paced environments and solving problems effectively.

WORK EXPERIENCE

SmartCV-Mobixa Software Eng. 01-05-2023 01.02.2023

SmartCV-Mobixa Software Eng. Intern 01-03-2022 30-03-2022

Front-End dev. ,I fixed some bugs in companies current mvc Project ,Create an admin panel for e learning platforms Front-end with react-js .

- Create a login system with redux.
- User and Customer management pages.
